

## EXISTING FIRE ALARM AND SPRINKLER SYSTEMS

### Affidavit

Florida Statute 553.7932 issues new directives for a simplified permitting process. Please review the information below and initial whichever applies to the permit application being submitted. Upload this document along with all supporting documents to the permit application.

\_\_\_\_\_ None of these apply to my permit application.

\_\_\_\_\_ "Fire alarm system project" means a fire alarm system alteration of a total of 20 or fewer initiating devices and notification devices; the installation or replacement of a fire communicator connected to an existing fire alarm control panel in an existing commercial, residential, apartment, cooperative, or condominium building; or the replacement of an existing fire alarm panel using the same make and model as the existing panel.

Note: Inspections are still required. Please contact Don Rooks with Largo Fire 727-587-6740 ext 2108; fireplanreview@largo.com

\_\_\_\_\_ "Fire sprinkler system project" means a fire protection system alteration of a total of 20 or fewer fire sprinklers in which the sprinklers are of the same K-factor and located in spaces where there is no change of hazard classification or increased system coverage area, or the installation or replacement of an equivalent fire sprinkler system component in an existing commercial, residential, apartment, cooperative, or condominium building. For purposes of this paragraph, a component is equivalent if the component has the same or better characteristics, including electrical, hydraulic, pressure losses, and required listings and spacing as the component being replaced.

Note: Inspections are still required. Please contact Don Rooks with Largo Fire 727-587-6740 ext 2108; fireplanreview@largo.com
